JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

certain articles, such as salted radishes, dried vegetables, dried mushrooms, salted plums, dried shrimps, and fresh vegetables, were held up pending the disappearance of cholera from this port. Samples of the articles named were examined, and their condition was such that I decided it would not be safe to ship them at present.

The shipping people were also cautioned against allowing shore liberty to crews or steerage passengers while in this port and against taking fresh supplies or water.

Emigrants were examined as follows:

Steamship *Tango Maru* for Seattle, 41 passed, 27 recommended for rejection; steamship *Tremont* for Seattle, 9 passed, 17 recommended for rejection.

In Kobe, during the week, there were 114 cases of cholera with 34 deaths.

Reports from Osaka show 5 cases of plague with 5 deaths, and 43 cases of cholera with 31 deaths. The total number of cases of cholera reported in Kobe so far this month is 199 with 67 deaths. In Osaka there have been 70 cases of cholera with 52 deaths, and 7 cases of plague with 7 deaths.

Report from Nagasaki—Emigrants recommended for rejection.

Sanitary Inspector Bowie reports:

September 25. Number of emigrants per steamship *Nippon Maru* recommended for rejection, 8.

KOREA.

Report from Seoul—Quarantine to be enforced against Antung on account of cholera.

The following is received from the Department of State, under date of October 21:

A dispatch has been received from the consul-general at Seoul, dated September 13, 1907, in which he states that the consuls of the treaty powers in Korea having received notice through the residency general of the existence of cholera at the port of Antung, Manchuria, have agreed that quarantine regulations shall be enforced against vessels arriving from that port, and that the same should commence from September 12.

MEXICO.

Reports from Progreso—Sanitary conditions good—Inspection and fumigation of vessels.

Acting Assistant Surgeon Harrison reports, October 7 and 12:

October 4 to October 12, 1907. Sanitary conditions continued good. No yellow fever was reported. Four steamships received bills of health. They carried 195 persons in crews and 71 passengers from this port. Of the steamships one was fumigated.

September 20 to October 5. Health conditions continue good. The port and the country generally are free of yellow fever. During the period covered by this report 8 steamships received bills of

health. They carried crews of 408 persons, and 110 passengers from this port. Three of these vessels were fumigated for Gulf ports and Baltimore.

Report from Veracruz—Inspection and fumigation of vessels.

Acting Assistant Surgeon Frick reports, October 14:

Week ended October 12. October 6: Fumigated the British steamship *Coniston*, bound for Port Arthur with 25 in the crew; vessel sails in ballast with time of last exposure at 7.50 a. m. Fumigated the Norwegian steamship *City of Mexico*, bound for New Orleans via Tampico with 25 in the crew and 6 passengers; vessel sails in the remainder of an American cargo with time of last exposure at 9 a. m.

October 8: Fumigated the French steamship *Bordeaux*, bound for New Orleans via Tampico with 49 in the crew; vessel sails in the remainder of a European cargo with time of last exposure 8.40 a. m. Inspected the British steamship *Candidate*, bound for New Orleans via Coatzacoalcos with 41 in the crew; vessel sails in the remainder of a European cargo. The *Candidate* sailed October 11. Inspected the American steamship *Mexico*, bound for New York via Progreso and Habana with 129 in the crew, 59 cabin and 13 steerage passengers; vessel sails in a general cargo. The *Mexico* sailed October 11.

October 11. Fumigated the British steamship *Fernfield* bound for Mobile with 27 in the crew; vessels sails in ballast with time of last exposure at 1.15 p. m. This vessel failed to sail and was therefore refumigated October 12, and sailed the same day with time of last exposure at 7.15.

October 13. Fumigated the British steamship *Cayo Soto* bound for Galveston via Tampico with 30 in crew; vessel sails in the remainder of a European cargo with time of last exposure at 7.30 a. m. A bill of health was issued the British steamship *Wearside*, which vessel expects to sail October 13.

No quarantinable disease was reported during the week.

NICARAGUA.

Reports from Bluefields, fruit port—Stegomyia calopus present.

Acting Assistant Surgeon Layton reports as follows:

Week ended October 13, 1907. Present officially estimated population, 2,800. General sanitary condition of this port and the surrounding country during the week, good.

Bills of health issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.
Oct. 7	Osceola	Boston, Mass., via Pearl Lagoon, Rio Grande, and Prinzapulca, Nicaragua, and Mathew Town, Inagua, West Indies.	30	0	0
13	Bluefields	New Orleans	23	2	0
